

Philips  
stereo TV with Pixel Plus

29"

real flat HD Ready

29PT8836

# Turn up your viewing experience

with High Definition Ready TV

With a top quality video connection ideal for connecting DVD players to your TV, this set brings you pictures so real, that you feel like being there. Now you can enjoy cinematic experience at the comfort of your own living room.

## Breathtaking natural pictures

- Real Flat picture tube technology brings you lifelike images
- Pixel Plus for detail, depth and clarity
- Progressive Scan component video for optimized image quality
- 3D combfilter separates colors for a razor-sharp image
- Active Control optimizes picture quality whatever the source

## Exciting and lifelike sound

- Incredible Surround™ for enhanced audio enjoyment

## Designed for your convenience

- Smart Picture and Smart Sound to personalize your viewing

## For advanced performance

- Component Video Input for top quality playback

**PHILIPS**  
sense and simplicity

## Specifications

### Picture/Display

- **Aspect ratio:** 4:3
- **Diagonal screen size:** 29 inch / 72 cm
- **Visible diagonal screen size:** 68 cm
- **Display screen type:** Real Flat picture tube
- **Picture enhancement:** Contrast Plus, Progressive Scan, Scavem, 3D Combfilter, Active Control Plus, 3:2 pull-down, Black stretch, Color Transient Improvement, Color Temperature Adjustment, Dynamic Noise Reduction, Luminance Transient Improver, Smart Picture, Tint, Pixel Plus

### Supported Display Resolution

#### • Video formats

Resolution	Refresh rate
480p	60Hz
720p	50, 60Hz
1080i	60Hz
1080p	60Hz

### Sound

- **Output power (RMS):** 2 x 10W
- **Music Power:** 20 W
- **Sound Enhancement:** Auto Volume Leveller, Smart Sound, Balance, Incredible Surround, Treble and Bass Control
- **Sound System:** Stereo Playback

### Convenience

- **Ease of Installation:** Autostore, Fine Tuning
- **Ease of Use:** Smart Picture Control, Smart Sound Control
- **Remote control type:** RCLA015

- **Remote control:** Zappa
- **Screen Format Adjustments:** 4:3, 4:3 expand
- **On-Screen Display languages:** English, Hindi

### Tuner/Reception/Transmission

- **Tuner bands:** Hyperband, S-Channel, UHF, VHF
- **TV system:** PAL D/K, PAL I, PAL B/G, NTSC
- **Video Playback:** NTSC, PAL
- **Number of Preset Channels:** 100

### Connectivity

- **AV 1:** Component Video in, CVBS in
- **AV 2:** CVBS, S-Video
- **AV 3:** Monitor Out
- **Front / Side connections:** CVBS in, S-video in, Headphone out
- **AV 4:** YPbPr

### Power

- **Power consumption:** 121 W
- **Standby power consumption:** < 1 w
- **Mains power:** AC 100-250V, 50/60Hz

### Dimensions

- **Set dimensions (W x H x D):** 736 x 580 x 490 mm
- **Set weight:** 46 kg
- **Weight incl. Packaging:** 50 kg
- **Box dimensions (W x H x D):** 803 x 668 x 576 mm
- **Color cabinet:** Bicolour High Gloss Black and Silver Frost

## Product highlights

### Real Flat picture tube

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

### Pixel Plus

Pixel Plus is a digital picture processing technology that increases the number of lines and the number of pixels. The result is razor sharp pictures with incredible detail and depth, every time from any source.

### Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first, followed by the field with the even lines, both fields are written at one time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.

### 3D Combfilter

The 3D comb filter separates brightness and color signals better in 3D domain to eliminate cross-color, cross-luminance and dot-crawl distortion - all of which detract from your viewing pleasure. The 3D digital comb filter performs field-by-field comparisons of the television image to accurately separate the color from the black-and-white information and remove both horizontally and vertically hanging dots, as well as dot crawl. The result is a razor sharp image.

### Active Control

Active Control ensure that noise and sharpness improvements are continuously made at a rate of 60 times per second. By continually adjusting picture setting over 3,000 times per minute, Active Control Plus ensures that the viewing experience is optimized.

### Incredible Surround™

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

### Smart Picture and Smart Sound

Philips preset modes for Smart Picture and Smart Sound provide you with direct access via a single key on the remote control. You can select optimized picture and sound settings for the various picture and sound modes.

### Component Video Input (YPbPr)

Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.
